OBJECTIVES

Dedicated and highly skilled Frontend Angular Developer with two years of experience in building modern and responsive web applications. Adept at utilizing Angular, TypeScript, and web technologies to create intuitive user interfaces that enhance the user experience. Seeking an opportunity to contribute my expertise to a dynamic development team and continue to grow as a professional.

EXPERIENCE

HASNA TECHNOLOGY | FRONTEND - ANGULAR DEVELOPER | 2+ YEARS

Oct 2021 – Present | Full-Time | Mannady, Chennai

- Sculpted and maintained web applications with Angular, skillfully weaving TypeScript, HTML, Scss and CSS into seamless user experiences.
- Transformed abstract concepts into elegant UI/UX designs, enhancing user satisfaction and engagement.
- Mastered the art of Angular CLI, streamlining development processes and fostering code quality.
- Invoked third-party APIs to amplify application functionalities, pushing boundaries.
- Ensured browser compatibility and responsiveness across a diverse array of devices.
- Crafted over 25 dynamic and engaging web pages for a leading American private enterprise, empowering seamless communication and education with their workforce.
- Employed GSAP to infuse captivating animations into the interactive web pages, aligning with the client's aesthetic vision and doubling project engagement rates.
- Proficiency with GitHub, harnessing its power for adeptly managing source code and orchestrating version control.
